Pla d'acció local Granollers

Metropolitan Region

Granollers

Horizon 2030

Pla Estratègic Granollers 2030

Overall vision
Mission approach
Participatory process

Operational plan
Spanish government methodology
Projects lead by the local government

Missions

Pla Estratègic Granollers 2030

1. Granollers, a carbon-neutral and climate-resilient city.
2. Granollers, a city that fosters talent and innovation.
3. Granollers, a city committed to the lifelong wellbeing of its citizens.

Projects

1. Local green energy strategy.
2. Renaturalisation strategy.
3. Urban transformation through covering the railway line.
4. Supporting young people's autonomy and their educational and career pathways.
5. Public space renovation projects based on urban resilience criteria.
6. Local water strategy.
7. Expansion of affordable housing.
8. Transforming information systems to improve public services.
9. Roca Umbert Arts Factory: cultural, audiovisual and creative industries.
10. Promoting sustainable mobility.
11. Social care model for older people.
12. Comprehensive regeneration of vulnerable neighbourhoods.
13. Promoting the green and circular economy.
14. New social care model.
15. Agricultural development in Palou and local food strategy.
16. Promoting the city through the restoration of the city walls and surrounding areas.

Governance System

citizen
dimension

**CITY COUNCIL
ASSEMBLY**

**STEERING
GROUP**

political
dimension

**POLITICAL
COMMITTEE**

technical
dimension

**TECHNICAL
OFFICE**

Challenges

1. How do we balance the idea of acting at a local level with the need to share responsibilities or coordinate beyond the local scale?
2. How do we govern and implement the Local Urban Agenda in coordination with higher-level administrations?
3. How do we involve other stakeholders beyond just monitoring? In other words, how do we actively include them in the Action Plan itself?
